

STOPS CRACKS DEAD

DUX Roadgrid is designed to rehabilitate asphalt and concrete pavements. **DUX Roadgrid** combines the reinforcing effect of a high-modulus 50x50kN/m polyester grid with a waterproofing self-adhesive bitumen backing. Supplied in 1.0m and 0.5m wide rolls, **DUX Roadgrid** is ideal for treating lane widenings, construction joints and individual cracks.

Application is quick and simple - peel-off the backing paper and apply to the road surface - no messy tack coats as with other asphalt grid products.

Roadgrid has proven performance over 10 years and best yet **DUX Roadgrid** is proudly made in Australia by DENSO.

Stop reflective cracking dead in its tracks with **DUX Roadgrid**.
