

# Stanage Bay Boat Ramp

Project: Stanage Bay Boat Ramp  
Location: Stanage Bay, near Rockhampton QLD  
Date: 2019  
Contractor: Pensar

Installing DUX geotextile and rock rip-rap. Super-strong DUX 600c provides filtration and drainage to prevent soil erosion of embankment. The large 6m wide rolls minimise roll overlaps and wastage.

# Stanage Bay Boat Ramp

GG3030 geogrid provides base on which to fix concrete panels to form boat ramp. GG3030 is a strong 30x30kN/m biaxial polypropylene geogrid, meeting QMRD specs, widely used for roadbase reinforcement.

Finished Boat Ramp
